

Civilian Oversight of Los Angeles County Sheriff's Department Empowerment Congress

What does civilian oversight of the Sheriff's Department mean for Los Angeles County?

Civilian oversight will give the public a dedicated forum to hold its elected Sheriff and the department accountable.

Why does it matter whether or not there is civilian oversight for the Sheriff's Department?

Public confidence in the Sheriff's Department is at an all-time low. Litigation costs are sky rocketing, in Fiscal Year 2012-2013 alone expenses totaled \$43 million.

How could a Sheriff's Department Oversight Commission make a difference to county residents?

It would serve as a strong citizen voice on County policing and jailing.

What will happen on July 22, 2014 at the Board meeting?

Sheriff and Inspector General will present their response, the public will testify and then the Board of Supervisors will vote.

How many Supervisors need to vote yes to make civilian oversight of the Sheriff's Department a reality?

HOW CAN I HELP?
