## February Is Teen Dating Violence Awareness & Prevention Month!

It's an unfortunate fact, violence and abuse, especially, Teen Dating Violence has reached epidemic levels and has disrupted our homes, schools and communities. Women of all ages, cultures, races, occupations and income levels are battered - by husbands, boyfriends, girlfriends, lovers and partners. Boys are also victims of abuse!

About 1 in 5 women and nearly 1 in 7 men (*this number is most likely much higher, because these incidents are only those reported*) who ever experienced rape, physical violence, and/or stalking by an intimate partner, **first experienced some form of partner violence between 11 and 17 years of age** according to the Centers for Disease Control and Prevention, *2010 National Intimate Partner and Sexual Violence Survey*.

Please join **The Positive Results Corporation** as we bring attention to the issue of teen dating violence, and highlight the importance of educating youth, young adults and families about violence and abuse, healthy relationships, and what **LOVE** really looks and feels like!

### **Educational Seminars and/or "Real Talk" Workshops and Discussion**
